

diptyque

Diptyque, founded in 1961 by three friends—Christiane Montadre-Gautrot, Desmond Knox-Leet, and Yves Coueslant—Diptyque has a rich heritage rooted in artistic and literary circles. This history informs the brand's commitment to artisanal craftsmanship, ensuring that each product is meticulously created with high-quality ingredients.

Their candles, for example, are still poured by hand in a process that reflects the brand's dedication to traditional craftsmanship.

# “facade”

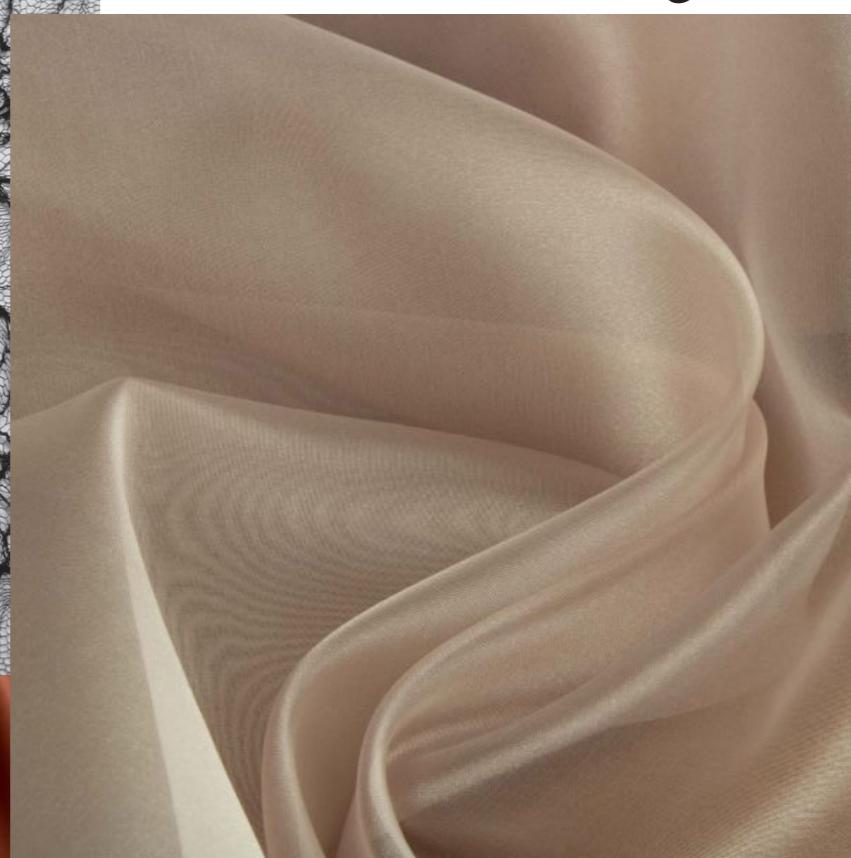

lace

satin

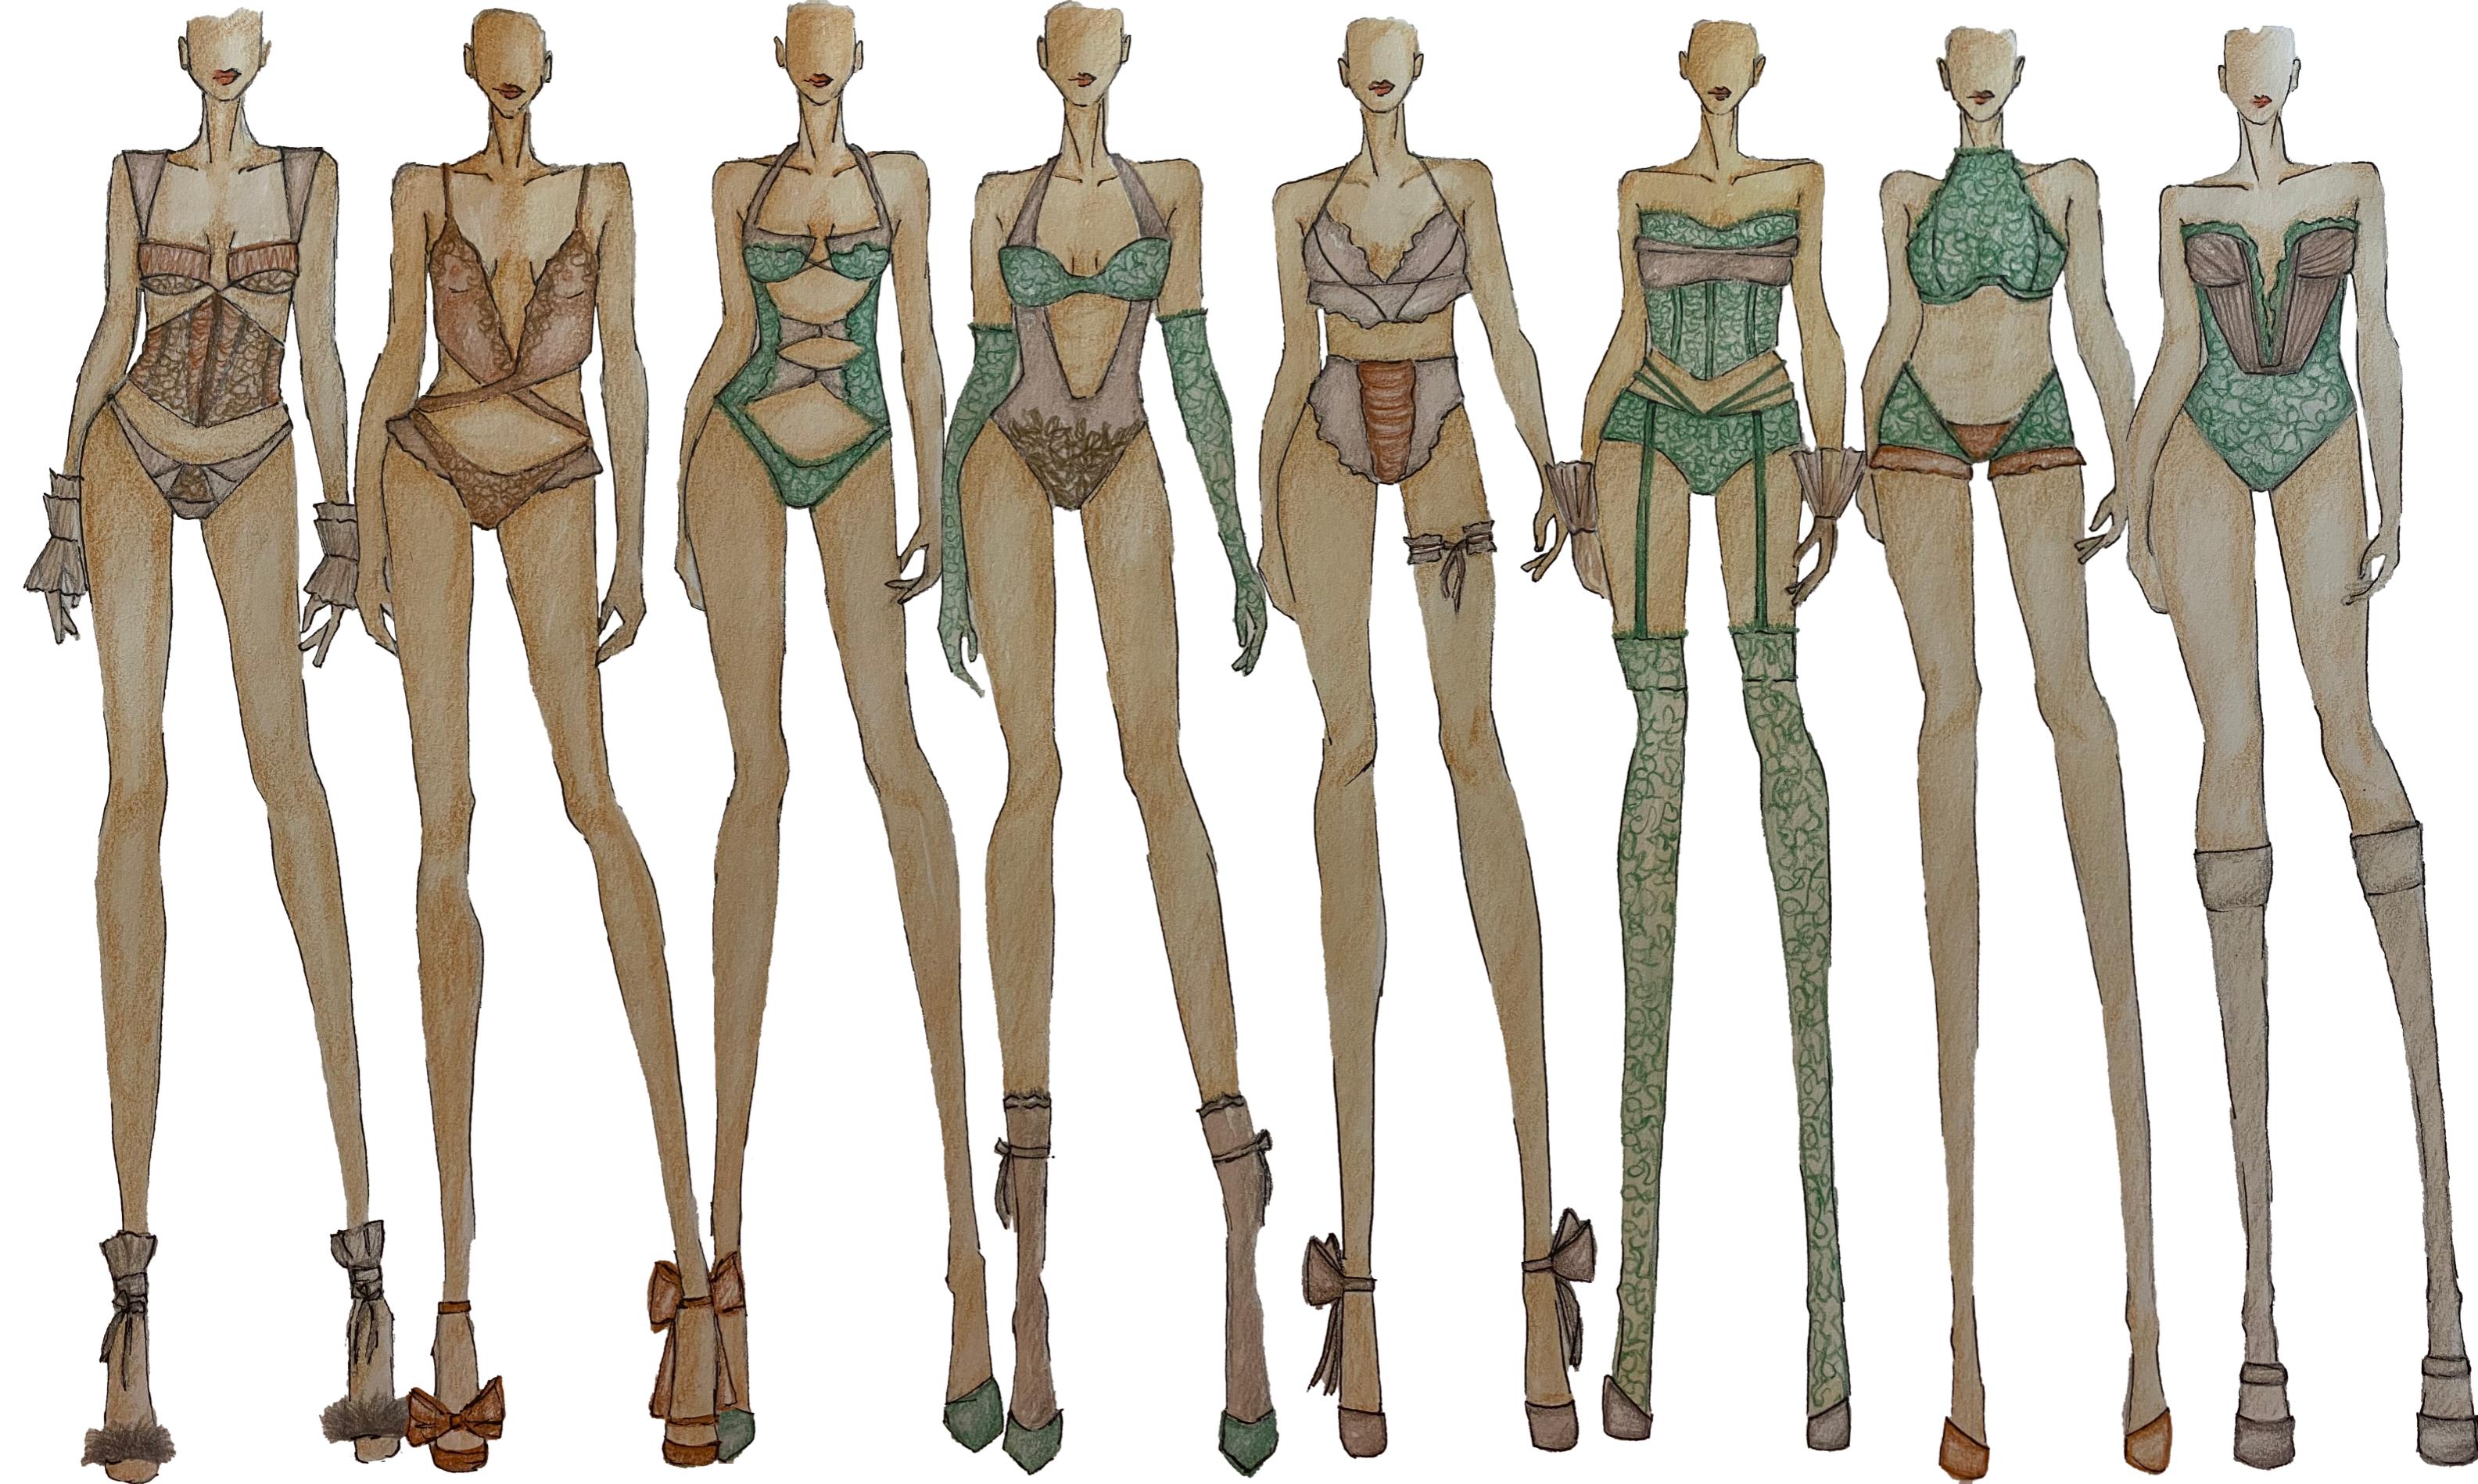

organza

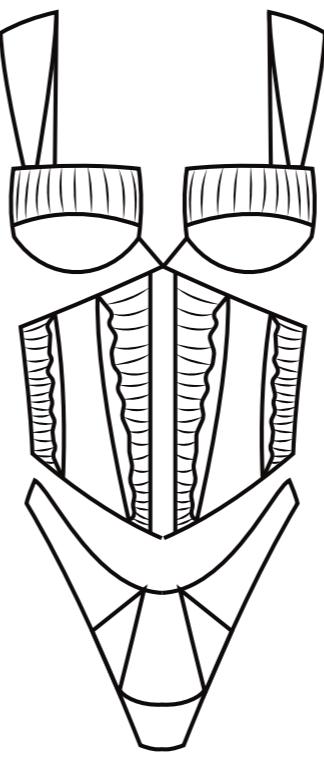

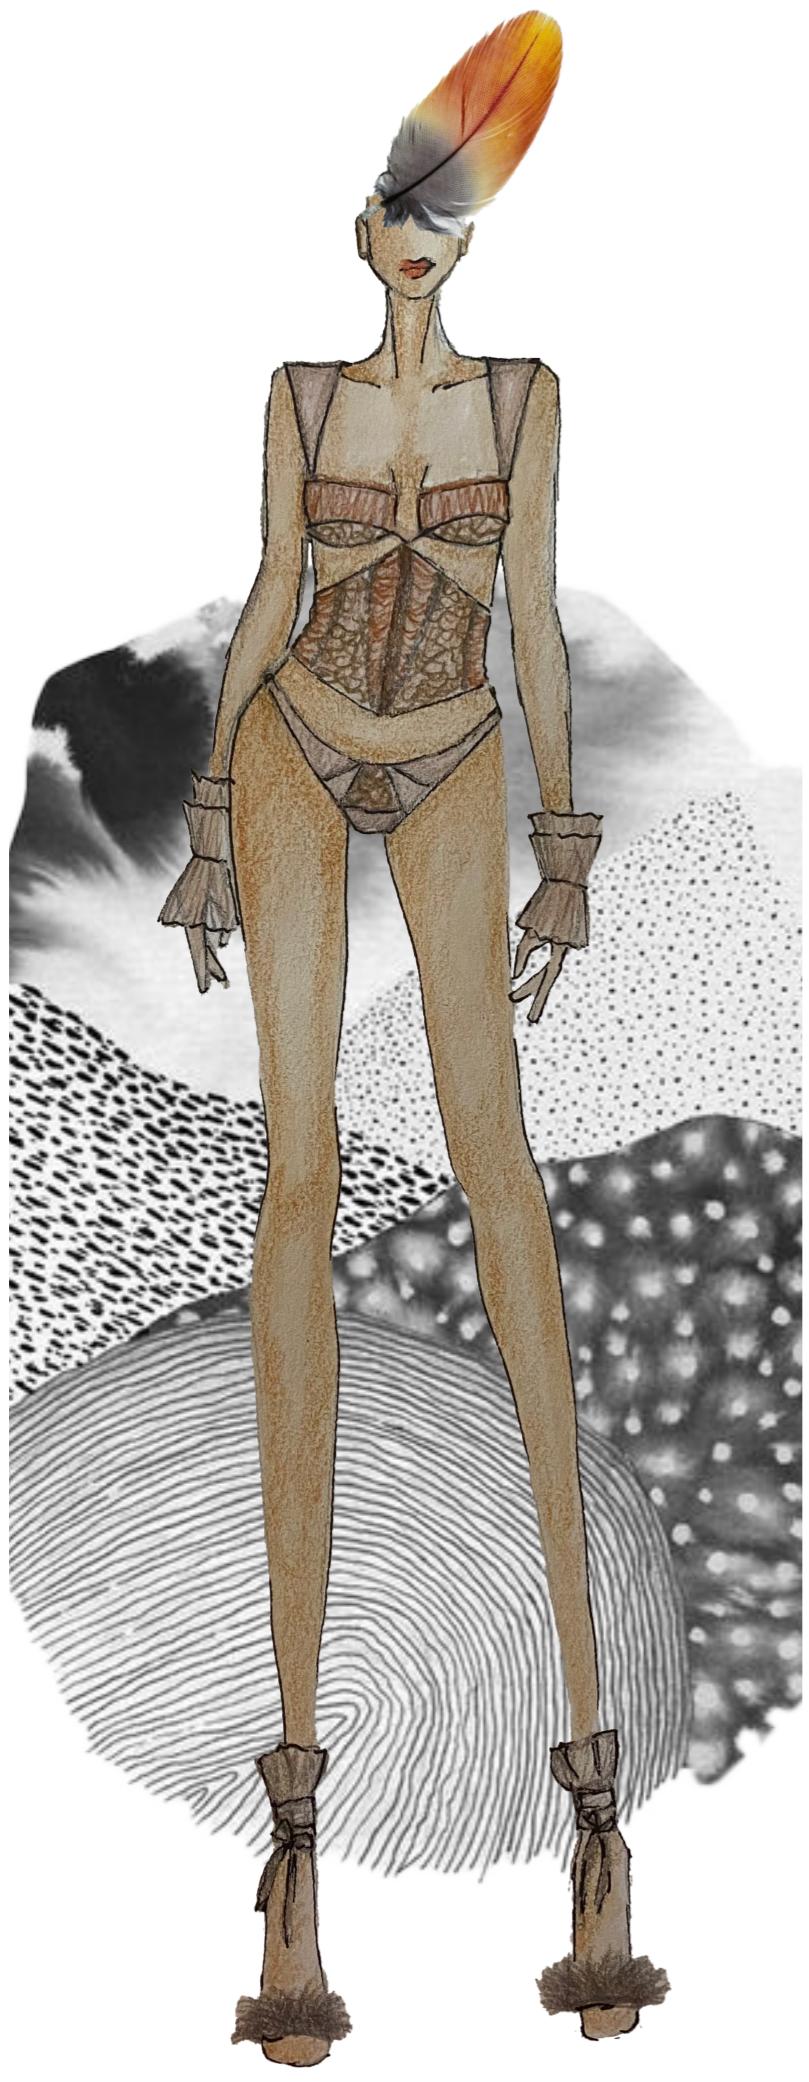

lace

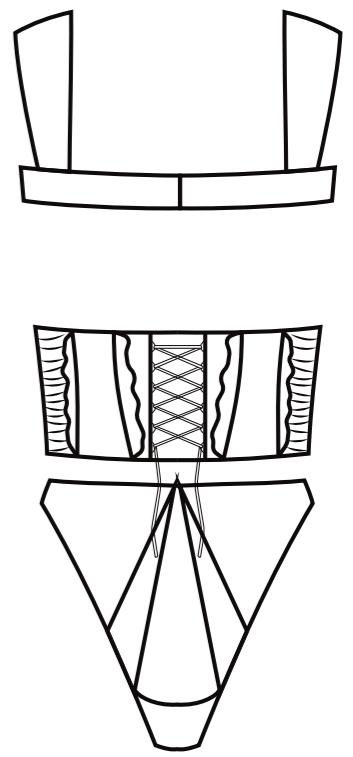

I have chosen the brand, disptyque for it's elegance. The theme of this collection, however is "facade", showcasing how women portray a perfect self in front of people regardless of facing innumerable hardships and hurdles. Diptyque is known for its complex and evocative fragrances that often combine unexpected ingredients to create unique scent profiles. The brand's fragrances are crafted to evoke memories and emotions, making them deeply personal and evocative. similarly, this collection is about how each woman is different irrespective of the same bold front she puts forward in front of the world.
